AI Transformation Coach / AI Enablement Lead

EXECUTIVE SUMMARY

- AI Transformation Lead with 10+ years across consulting, product discovery, and entrepreneurship — uniquely combining hands-on AI delivery expertise (3 years) with strategic business acumen and entrepreneurship mindset across multiple domains.
- Specialized in identifying, prioritizing, and executing AI opportunities that drive measurable business impact — from cost reduction and operational efficiency to new revenue models.
- Proven ability to bridge strategy and execution: conducted 50+ enterprise AI discovery workshops, translating executive-level goals into actionable roadmaps and scalable implementation plans.
- Extensive experience guiding cross-functional teams in adopting AI-enabled SDLC frameworks, unlocking 40%+ cost savings and accelerating time-to-market for digital products.
- Deep understanding of the investment perspective on value creation — designed AI-driven operational improvement programs directly aligned with investment theses and portfolio value acceleration.
- Recognized thought leader and facilitator: keynote speaker and public ambassador for AI adoption programs within EPAM and Fortune 500 clients, driving cultural and operational transformation across global organizations

My overall experience includes:

- As a founder: Achieved 2 exits, navigated 3 failed startups.
- As a product manager: Launched 7 products hands-on, guided 21 with mentees.
- As a consultant: Generated €60M+ revenue on consulting services, €60M+ in savings/earnings for clients within 5 years, with a 61:14 success-to-failure ratio.

My clients include:

- Global enterprises: Microsoft, DHL, Bayer, PPG, Heineken, Bosch, Yamaha, PGGM, StepStone, etc.
- CIS enterprises - Sber, Beeline, MTS, Alfa Bank, X5 Retail Group, Otkritie, etc.
- 70+ startups/SME's.

WORK EXPERIENCE

EPAM Systems

02/2023 - Present
